JITC MISSION

JITC supports the Warfighters in their effort to manage information on and off the battlefield, including:

♦ Identification and resolution of Command, Control, Communications, Computers and Intelligence (C^4I) and combat support systems interoperability deficiencies.

♦ C^4ISR (NSS / ITS) joint and combined interoperability testing, evaluation and certification.

♦ C^4ISR (NSS / ITS) interoperability support, operational field assessments, and technical assistance to the Combatant Commanders, Services and Agencies.

♦ Independent operational test and evaluation/assessment of DISA and other DOD C^4ISR (NSS / ITS) acquisitions.

♦ In-theater interoperability support during exercises and contingencies.

Revised: June 2004

JITC - Fort Huachuca, AZ

ATTN: Commander
Joint Interoperability Test Command
